Small system tray application to control Linak Bluetooth desks

1 Contributor 0 Issues 8 Stars 1 Fork

Bluetooth tray application software. Csr bluetooth tray application. Bluetooth tray application download windows 7. Bttray.exe bluetooth tray application. Bluetooth tray application startup. Bluetooth tray application スタートアップ. How to add bluetooth to system tray. Bluetooth tray application has stopped working.

This file has been identified as a program that is undesirable to have running on your computer. This consists of programs that are misleading, harmful, or undesirable. If the description states that it is a piece of malware, you should immediately run an antivirus and antispyware program. If that does not help, feel free to ask us for assistance in the forums. Windows Bluetooth Tray Application Added by the W32/Sdbot-DGN worm and IRC backdoor. This startup entry is installed as a Windows service. Windows Bluetooth Tray Application %Windir% refers to the Windows installation folder. By default, this is C:\Windows for Windows 95/98/ME/XP/Vista/7 or C:\Winnt for Windows NT/2000. This entry has been requested 43,357 times. It is assumed that users are familiar with the operating system they are using and comfortable with making the suggested changes. BleepingComputer.com will not be held responsible if changes you make cause a system failure. This is NOT a list of tasks/processes taken from Task Manager or the Close Program window (CTRL+ALT+DEL) but a list of startup applications, although you will find some of them listed via this method. Pressing CTRL+ALT+DEL identifies programs that are currently running - not necessarily at startup. Therefore, before ending a task/process via CTRL+ALT+DEL just because it has an "X" recommendation, please check whether it's in MSCONFIG or the registry first. An example would be "svchost.exe" - which doesn't appear in either under normal conditions but does via CTRL+ALT+DEL. If in doubt, don't do anything. The genuine BTTray.exe file is a software component of Broadcom Bluetooth by Broadcom. Broadcom Bluetooth is a wireless technology developed upon the Bluetooth standard by Broadcom. BTTray.exe runs the system tray icon for Broadcom Bluetooth. This is not an essential Windows process and can be disabled if known to create problems. Broadcom Bluetooth consists of hardware, as well as, software components. The hardware comprises a transceiver (radio), chip with a digital signal processor, baseband and antenna. The software contains a protocol stack. For machines running Windows, Broadcom provides a WIDCOMM Bluetooth protocol software. The Broadcom Corporation is an American company that designs and develops fabless semiconductors which are mainly used in wireless and broadband communication. The company was founded in 1991 by Henry Samueli and Henry Nicholas, a professor-student pair from UCLA. Broadcom was acquired by Avago Technologies in 2016 and currently operates as its subsidiary. It currently generates over \$8 billion in revenue and is currently listed in the Fortune 500. Broadcom is currently headquartered in Irvine, California, USA. BTTray stands for Bluetooth Tray Application The .exe extension on a filename indicates an executable file. Executable files may, in some cases, harm your computer. Therefore, please read below to decide for yourself whether the BTTray.exe on your computer is a Trojan that you should remove, or whether it is a file belonging to the Windows operating system or to a trusted application. Click to Run a Free Scan for BTTray.exe related errors BTTray.exe related errors BTTray.exe process in Windows Task Manager The process known as Bluetooth Tray Application or Bluetooth Application or WIDCOMM Bluetooth Software or BlueSoleil Bttray or Lenovo Bluetooth with Enhanced Data Rate Software belongs to software WIDCOMM Bluetooth Software or Qualcomm Atheros Bluetooth Suite or Ralink Bluetooth Stack64 or Bluetooth Software or HP Integrated Module with Bluetooth wireless or Dell WLAN and Bluetooth Client or Broadcom Bluetooth Software with Enhanced Data Rate or ThinkPad Bluetooth with Enhanced Data Rate or Qualcomm Atheros WLAN and Bluetooth Client or Broadcom (version 2070 Bluetooth 2.1 + EDR, 2070 Bluetooth) or Bttray Application or BlueSoleil or Belkin Bluetooth Software or ASUS Bluetooth Software by Broadcom (www.broadcom.com) or Qualcomm Atheros or IVT (www.ivtcorporation.com) or WIDCOMM (www.widcomm.com). Description: BTTray.exe is not essential for the Windows OS and causes relatively few problems. The file BTTray.exe is located in a subfolder of "C:\Program Files" or sometimes in a subfolder of the user's profile folder (generally C:\Program Files\WIDCOMM\Bluetooth Software\). Known file sizes on Windows 10/8/7/XP are 849,024 bytes (5% of all occurrences), 766,080 bytes and 120 more variants. BTTray.exe is not a Windows system file. You can uninstall this program in the Control Panel. The program has no visible window. The BTTray.exe file is a Verisign signed file. The application starts upon Windows startup (see Registry key: MACHINE\User Shell Folders, MACHINE\Run, TaskScheduler). The BTTray.exe file is digitally signed. BTTray.exe is able to monitor applications. Therefore the technical security rating is 35% dangerous; but you should also compare this rating with the user reviews. Uninstalling this variant: If you experience any issues with installation of BTTray.exe, you can do the following: use the software publisher's support [1][2] make sure that you have installed the latest version [1][2] uninstall WIDCOMM Bluetooth Software or HP Integrated Module with Bluetooth Wireless Technology software via Windows Control Panel/Add or Remove Programs (Windows XP) or Programs and Features (Windows 10/8/7) Recommended: Identify BTTray.exe related errors External information from Paul Collins: "bttray" can run at start up. System tray icon which shows the status of a BlueTooth wireless module. Most systems with such a module installed can enable/disable the module. The system tray icon changes from blue/white to blue/red when the module is turned off. Allows access to explore bluetooth places, setup wizard, advanced configuration, quick connect and shutdown device Important: Some malware camouflages itself as BTTray.exe, particularly when located in the C:\Windows or C:\Windows\System32 folder, for example Virus.Win32.Virut.ce (detected by Kaspersky), and Virus.Win32/Virut.BO (detected by Microsoft). Therefore, you should check the BTTray.exe process on your PC to see if it is a threat. We recommend Security Task Manager for verifying your computer's security. This was one of the Top Download Picks of the Washington Post and PC World. A clean and tidy computer is the key requirement for avoiding problems with BTTray. This means running a scan for malware, cleaning your hard drive using 1cleanmgr and 2sfc/scannow, 3uninstalling programs that you no longer need, checking for Autostart programs (using 4msconfig) and enabling Windows' 5Automatic Update. Always remember to perform periodic backups, or at least to set restore points. Should you experience an actual problem, try to recall the last thing you did, or the last thing you installed before the problem appeared for the first time. Use the Gresmon command to identify the processes that are causing your problem. Even for serious problems, rather than reinstalling Windows, you are better off repairing of your installation or, for Windows 8 and later versions, executing the 7DISM.exe /Online /Cleanup-image /Restorehealth command. This allows you to repair the operating system without losing data. To help you analyze the BTTray.exe process on your computer, the following programs have proven to be helpful: ASecurity Task Manager displays all running Windows tasks, including embedded hidden processes, such as keyboard and browser monitoring or Autostart entries. A nice security risk rating indicates the likelihood of the process being potential spyware, malware or a Trojan. BMalwarebytes Anti-Malware detects and removes sleeping spyware, adware, Trojans, keyloggers, malware and trackers from your hard drive. rocketdock.exe zam.exe bae.dll BTTray.exe ycmirage.exe sflist.exe pg\_ctl.exe servicehostappupdate.exe hpzwin12.dll greghsrv.exe 7-zip.dll [all] BTTray (BTTray.exe) 啟動程式項目是一種由使用者自行決定的程式。所謂"由使用者自行決定的程式"意思是指這個程式是否需要要在作業系統啟動時自動執行取決於您。 啟動項目名稱 BTTray 檔案或命令名稱 BTTray.exe 說明和描述 System tray icon which shows the status of a Bluetooth wireless module from WIDCOMM, Inc (either integrated or via an adapter). Most systems with such a module installed can enable/disable the module and the icon changes from blue/white to blue/red when the module is turned off. Required in order to successfully "pair" your system with a Bluetooth device (such as a mobile phone, PDA, headset) using this wireless protocol (via a PIN) and loads via %AllUsersStartup% 程式位置 %ProgramFiles%\IBM\Bluetooth Software 程式內容描述 Bluetooth Tray Application 功能和目的 Bluetooth configuration 程式捷徑 Start Menu, Desktop 製造商 WIDCOMM, Inc. 軟體名稱 Bluetooth II adapter 程式是否具有關閉啟動時自動執行的功能 1. 系統登錄檔(登錄編輯程式) 開始 -> 執行 -> 輸入regedit 或從命令提示字元 -> 輸入regedit 機構(Key) 名稱 資料 2. MSCONFIG 開始 -> 執行 -> 輸入msconfig -> 啟動 或 命令提示字元 -> 輸入msconfig -> 啟動 啟動項目(XP) BTTray 啟動項目(Vista/7) N/A 命令 "C:\Program Files\IBM\Bluetooth Software\BTTray.exe" 3. Windows Defender: 開始 -> 所有程式 -> Windows Defender -> 工具 -> 軟體掃描 名稱 BTTray 資料 04 - Global Startup: BTTray.lnk = "C:\Program Files\IBM\Bluetooth Software\BTTray.exe" 使用程式本身的設定功能 (Windows 10/8/7/Vista/XP) 。 最好的方法是檢查程式是否能允許您選擇關閉您不感興趣的程式功能, 透過右鍵點擊系統工作列顯示或程式中的「 選項」, 或「 設定」, 選項。 如果程式沒有這個設定功能, 那麼你就必須嘗試其他方法。 使用 Windows 啟動資料夾 (Windows 10/8/7/Vista/XP) 。 如果你點擊開始 -> 所有程式 -> 啟動 (Windows 7/Vista/XP) , 你會發現程式透過捷徑從這裡載入。 你可以從 Startup 資料夾中刪除程式捷徑 (根據您的作業系統) : Windows 10/8/7/Vista : ● C:\ProgramData\Microsoft\Windows\Start Menu\Programs\Startup ● C:\Documents and Settings\All Users\Start Menu\Programs\Startup ● C:\Documents and Settings\開始 您已建立一個名為「 關閉啟動程式」, 的臨時資料夾並將程式捷徑移至此處。 如果某個程式無法正常運作, 則可以始終將相關捷徑再次移回。 使用工作管理員 (Windows 10/8) 。 要使用工作管理員來管理啟動程式, 請執行以下操作: 1. 按 CTRL + SHIFT + ESC 2. 如果看不到「 啟動」, 選項標籤, 請單擊更多詳細資訊並選擇它 3. 選擇「 啟動」, 選項標籤 4. 選擇你想要的項目, 然後選擇關閉使用 MSConfig (Windows 7/Vista/XP) 。 請注意, 微軟不主張使用 MSConfig 來控制您的作業系統在啟動時應執行哪些程式。 MSConfig 目的在查找和隔離問題, 但它並不是啟動管理程式。 如果要使用 MSConfig 來管理啟動程式, 請執行以下操作: 1. 點擊開始 -> 執行 -> 輸入 msconfig 或 命令提示字元 -> 輸入 msconfig 2. 選擇「 啟動」, 選項標籤 3. 找到您要關閉的啟動項目, 然後取消勾選以關閉它 4. 點擊確定, 會出現問您是否要重新啟動的對話視窗。 如果您選擇不重新啟動, 則更改將在下次重新啟動時產生 5. 當您取消勾選 MSConfig 中的啟動項目時, 您將以「 選擇啟動項目」, 模式啟動。 如果您隨後決定選擇「 正常啟動」, 則所有有關的啟動項目將重新啟用使用 Windows Defender (Windows Vista/XP) 。 微軟過去建議在 Vista 或 XP 的系統上使用 Windows Defender (或登錄編輯程式) , 以控制在作業系統啟動時應執行哪些程式。 要使用 Windows Defender 來關閉啟動程式執行, 請執行以下操作: 1. 點擊開始 -> 所有程式 -> Windows Defender -> 工具 -> 軟體掃描 2. 選擇要關閉的應用程式名稱, 然後點擊關閉/停用 3. 請注意, 在能夠選擇關閉/停用之前, 您還必須點擊顯示所有使用者 (如果有的話) 4. 即使使用 Windows Defender 關閉了某些啟動項目, 但無論是在下次重新啟動還是下次執行時, 都可能會重新設定該啟動項目。 在這種情況下, 最好重新用它來保持現狀使用系統登錄檔/登錄編輯程式 (Windows 10/8/7/Vista/XP) 。 您可以使用登錄編輯程式在系統登錄檔中編輯相關項目來關閉並永久停止在啟動過程中執行的程式。 這個方式不適合初階電腦使用者, 只能由那些熟悉系統登錄檔的人使用, 並瞭解任何更改可能會產生的影響。 如果您意外刪除了系統登錄檔中的某些內容, 則 Windows 可能無法重新啟動, 作業系統可能會因此而損壞, 因此需特別小心。 要使用它來管理啟動程式, 請執行以下操作: ● 點擊開始 -> 執行 -> 輸入 regedit 或從命令提示字元 -> 輸入 regedit 您感興趣的最常用的機構(Key) 如下所示: HKLM\SOFTWARE\Microsoft\Windows\CurrentVersion\Run HKCU\Software\Microsoft\Windows\CurrentVersion\Run HKCU\Software\Microsoft\Windows\CurrentVersion\RunOnce HKCU\Software\Microsoft\Windows\CurrentVersion\RunServicesOnce (主要用於惡意程式) 有時舊版作業系統和惡意程式) 用於舊版作業系統和惡意程式) ● 對於系統登錄檔載入的項目: HKLM\SOFTWARE\Microsoft\Windows\CurrentVersion\Policies\Explorer\Run HKLM\SOFTWARE\Microsoft\Windows\NT\CurrentVersion\TerminalServer\Install\Software\Microsoft\Windows\CurrentVersion\Run 系統登錄檔對於啟動項目的儲存如下: ● 對於開始 -> 所有程式 -> 啟動資料夾中的項目: HKLM\SOFTWARE\Microsoft\SharedTools\MSConfig\startupfolder ● 對於系統登錄檔載入的項目: HKLM\SOFTWARE\Microsoft\SharedTools\MSConfig\startup\preg 使用 Autoruns (Windows 10/8/7/Vista/XP) 。 推薦使用 Autoruns 來控制作業系統啟動時執行的程式。 Autoruns 將對您需要的系統登錄檔進行更改並提供還原機制。 Autoruns 程式可以在此免費下載。 要使用它來關閉啟動程式執行, 請執行以下操作: 1. 找到 Autoruns 所在的資料夾 ● 對於 Windows 10/8.1: 點擊 LOGO 鍵並輸入 This PC ● 對於 Windows 8: 點擊 LOGO 鍵並輸入 Computer ● 對於 Windows 7/Vista/XP: 開始 -> 我的電腦 2. 點擊 Autoruns.exe 以執行它 3. 選擇「 登入 (Login)」, 選項標籤 4. 找到您要關閉的啟動項目, 然後取消勾選以關閉它 5. 即使使用 Autoruns 關閉了某些啟動項目, 但無論是在下次重新啟動還是下次執行時, 都可能會重新設定該啟動項目。 在這種情況下, 最好重新用它們並保持原狀使用第三方工具軟體 (Windows 10/8/7/Vista/XP) 。 有許多商業軟體, 共享軟體和免費軟體程式可用於管理啟動程式, 其中一些程式會與其他系統優化軟體綁架在一起。 每一個都可以用於管理啟動時執行的程式, 並允許您對其進行不同程度的控制。
